

## Kristen Stewart rocks summer's hottest color

In her personal life, **Kristen Stewart** likes to keep things low-key. But when it comes to showing off her red-carpet style, she's not content to hide under her usual hoodie. Instead, the *Eclipse* actress has been hitting events in sexy, bold-hued minis, giving *Twilight* fans a peek of the physique she may reveal in *Breaking Dawn*'s steamy love scenes.

## LEMON YELLOW

Choose your best hue by finding out if your complexion is "warm" (pink undertones) like **Salma Hayek** or "cool" (blue) like **Kate Winslet**. A trick is to try on gold and silver jewelry and decide which emphasizes your skin tone — gold suits a warm complexion, while silver suits cool. Pick bright yellow if you're warm and soft, muted hues if you're cool.
